## GEORGE W. BUSH HAS BIG LEAD IN IOWA CAUCUS POLL

First "Iowa Project 2000" survey shows George W. Bush with big lead, Elizabeth Dole distant second

Alexandria, Va – Support for George W. Bush runs deep and wide among likely Iowa Republican presidential caucus attendees. That according to an independent survey conducted by PSI of Alexandria, Virginia, released tonight by Capital Communications on television stations {WOI - Des Moines, Iowa}, {KCAU - Sioux City, Iowa}, {WHBF - Rock Island, Illinois} and {KLKN - Lincoln, Nebraska}.

This is the first survey of "The Iowa Project 2000", conducted by PSI, which will periodically survey likely Republican caucus attendees prior to the February 7, 2000, Iowa Caucuses.

"George Bush holds a double digit lead over Elizabeth Dole with the undecideds dropping four to one in his favor." said PSI president and project director Craig Tufty. "Bush has a wide base of support among all age groups, both sexes and Republican political activists. His support is strongest among the 18-34 year old age group and the 65 year and older age group, with a significant majority in the 35-64 year old age group. Republicans, no matter their level of political activity, give Bush solid support."

"Elizabeth Dole is a genuine contender, noticeably besting the remaining nine candidates among all age groups, both sexes and Republican political activists. Fifty-six percent of Dole's {first choice votes} go to Bush as a {second choice vote} while forty-five percent of Bush's {first choice votes} go to Dole as a {second choice vote}. No other candidate tested enjoyed this level of reciprocity with Bush."

"Dan Quayle, Patrick Buchanan [23% in the 1996 Iowa Caucuses] and Lamar Alexander [18% in the 1996 Iowa Caucuses] are essentially tied for third, while left to sort out last place are Alan Keyes [7% in the 1996 Iowa Caucuses], John McCain, Malcolm "Steve" Forbes [10% in the 1996 Iowa Caucuses], John Kasich, Gary Bauer and Robert Smith."

"Social Security, taxes, morality, education and abortion are among the issues facing the country today that the likely caucus attendees want the potential Republican presidential candidates to talk about. The most important personal characteristics that likely caucus attendees look for in a Republican presidential candidate are honesty and integrity."

The PSI survey among 300 likely caucus attendees, conducted on 3/4/99, showed the Republican candidates standing as follows:

| Candidate:                | Actual % | % Undecided / pushed | Total: |
|---------------------------|----------|----------------------|--------|
| George W. Bush            | 32.7     | 4.0                  | 36.7   |
| Elizabeth Hanford Dole    | 14.7     | 1.7                  | 16.4   |

### **#1**

#### **Mission Statement:**

The mission of "The Iowa Project 2000" is to track the progress of the Republican presidential candidates prior to the Iowa Caucuses on 02/07/00. This will be accomplished by conducting a series of surveys over the course of 1999 and January of the year 2000. Only those individuals who indicate that they plan on attending the Iowa Republican Caucuses on 02/07/00 will be surveyed.

#### **Sample Design:**

The sample for this survey was drawn from a computer database maintained by the state voter registrar, of all registered Republican voters in the state of Iowa. Each registered Republican who had voted in the 1996 or 1998 general election had an equal opportunity of being selected to participate in this survey.

5857 random phone contacts were made in order to obtain the final sample of 300. (A screening question eliminated potential respondents who indicated that they did not plan to attend their precinct caucuses in February of the year 2000).

Only the respondents who were the listed registered voters and resided at the listed addresses were interviewed.

The primary data for this survey was obtained through 300 **complete**, 5-7 minute telephone interviews. The primary data was collected on March 4, 1999.

The results of this survey are based on the answers of all the respondents interviewed. This survey has a margin of error of + or - 5.45% with a 95% degree of confidence.
