**BUSH ADDS TO HUGE LEAD IN IOWA CAUCUS POLL**

FIFTH "IOWA PROJECT 2000" SURVEY SHOWS McCAIN SURGING WHILE FORBES STALLS

Alexandria, Va – George W. Bush grabs the lion's share of likely Iowa Republican presidential caucus attendees with the departure of four presidential contenders. That, according to an independent survey conducted by PSI of Alexandria, Virginia, and released tonight by Capital Communications on television stations {WOI - Des Moines, Iowa}, {KCAU - Sioux City, Iowa}, {WHBF - Rock Island, Illinois} and {KLKN - Lincoln, Nebraska}.

This is the fifth in a series of surveys for the "The Iowa Project 2000" conducted by PSI, which is surveying likely Republican caucus attendees before the Iowa Presidential Caucuses on January 24, 2000.

"George Bush has managed to increase his commanding lead over his nearest competitor, Steve Forbes, to more than three to one," said PSI president and project director Craig Tufty. "Bush continues to strengthen double digit leads over all of his competitors among all age groups, both sexes and Iowa Republican party political activists. Party activists, no matter their self-described level of political activity, continue to strongly support Bush over any other candidate."

"Steve Forbes, a solid second with 14.6% in August, finds himself virtually stalled at 15.7% in this survey. He has lost important ground among males and the more politically active likely caucus attendees."

"John McCain, a dismal ninth with 1.7% in the August survey, has surged into a solid third place, threatening Forbes for runner-up status to Bush. Bush and McCain were the main beneficiaries with the departures of Alexander, Buchanan, Dole and Quayle. Bush grabbed 15.7% while McCain picked up 10.6%, Bauer 3% and Forbes 1.1%. Alan Keyes was the only loser, going from 4% down to 2.7%."

"Bauer, to a lesser extent, was also a winner in this survey almost doubling his August total from 3.3% to 6.3%. Orrin Hatch has gone absolutely nowhere, still bringing up the rear with 1%."

"Abortion, education, health care, social security and taxes" are the issues that the likely Republican caucus attendees want the presidential candidates to talk about.

The PSI survey among 300 likely Republican caucus attendees, conducted on 11/15/99, showed the candidates standing as follows:

Candidate:	Actual %	% Undecided / pushed	Total:
George W. Bush	48.7	4.0	52.7
Malcolm S. "Steve" Forbes	14.0	1.7	15.7
John McCain	9.3	3.0	12.3
Gary Bauer	6.3	0.0	6.3
Alan Keyes	2.7	0.0	2.7
Orrin Hatch	0.7	0.3	1.0
Undecided / pushed	9.0	9.0	
Undecided	9.3		9.3
Total:	100.0		100.0

note: percentages may not add up to 100 due to rounding.

## STATEMENT OF METHODOLOGY

**#5**

#### **Mission Statement:**

The mission of "The Iowa Project 2000" is to track the progress of the Republican and Democratic presidential candidates prior to the Iowa Caucuses on 1/24/2000. This will be accomplished by conducting a series of surveys over the course of 1999 and January of the year 2000. Only those individuals who indicate that they plan on attending the Iowa Caucuses on 1/24/2000 will be surveyed.

#### **Sample Design:**

The sample for this survey was drawn from a computer database maintained by the state voter registrar, of all registered Republican voters in the state of Iowa. Each registered Republican who had voted in the 1996 or 1998 general election had an equal opportunity of being selected to participate in this survey. Only registered Republicans were called for this survey.

3979 random phone contacts were made in order to obtain the final sample of 300. (A screening question eliminated potential respondents who indicated that they did not plan to attend their precinct caucuses in January of the year 2000).

Only the respondents who were the listed registered voters and resided at the listed addresses were interviewed.

The primary data for this survey was obtained through 300 **complete**, 5-7 minute telephone interviews. The primary data was collected on November 15, 1999.

The results of this survey are based on the answers of all the respondents interviewed. This survey has a margin of error of + or - 5.65% with a 95% degree of confidence.
