BUSH HOLDS ON TO HUGE LEAD IN FINAL IOWA CAUCUS POLL

SEVENTH "IOWA PROJECT 2000" SURVEY SHOWS FORBES A SOLID SECOND WHILE McCAIN SLIDES

Alexandria, Va – George W. Bush has managed to hold on to the vast majority of likely Iowa Republican presidential caucus attendees just two weeks from the Iowa Caucuses. That, according to an independent survey conducted by PSI of Alexandria, Virginia, and released tonight by Capital Communications on television stations {WOI - Des Moines, Iowa}, {KCAU - Sioux City, Iowa}, {WHBF - Rock Island, Illinois} and {KLKN - Lincoln, Nebraska}.

This is the seventh and final survey in "The Iowa Project 2000" conducted by PSI, which is surveying likely Democrat and Republican caucus attendees prior to the Iowa Presidential Caucuses on January 24, 2000. This is the fourth and final survey of likely Republican caucus attendees.

"George W. Bush maintains a commanding lead over his nearest competitor, Steve Forbes, by almost three to one," said PSI president and project director Craig Tufty. "Although dropping six points from the 11/17/99 survey, Bush has managed to hold on to substantial leads over his competitors in all age groups, both sexes and self-described party activists. No matter their level of political activity, Iowa Republican party activists continue to strongly support Bush over all the other candidates, most of whom are incapable of breaking into double digits. "

"Steve Forbes, in a statistical tie for second with John McCain in the 11/17/99 survey, now stands alone in the number two spot. He still trails Bush by 29 points. Respondents who indicated that they were "very sure" or "somewhat sure" that they would attend their caucuses gave Bush a 26 point advantage over Forbes, 44% to 17.7%."

"John McCain, who was statistically tied for second with Forbes in the November survey, finds himself in third place with 9.7%. He now joins the rest of the lower tier candidates Bauer (7%), Keyes (6%) and Hatch (1.7%), all of whom fall within the margin of error."

"Taxes, education, morality and the economy" are some of the issues that the likely Republican caucus attendees want the presidential candidates to talk about.

The PSI survey among 300 likely Republican caucus attendees, conducted on 1/10/2000, showed the candidates standing as follows:

Candidate:	Actual %	% Undecided / pushed	Total:
George W. Bush	44.0	2.3	46.3
Malcolm S. "Steve" Forbes	17.0	.3	17.3
John McCain	9.7	0.0	9.7
Gary Bauer	6.3	.7	7.0
Alan Keyes	6.0	0.0	6.0
Orrin Hatch	1.7	0.0	1.7
Undecided / pushed	3.3	3.3	
Undecided	12.0		12.0
Total:	100.0		100.0

note: percentages may not add up to 100 due to rounding.

STATEMENT OF METHODOLOGY

“The Iowa Project 2000”[©]

#7

Mission Statement:

The mission of "The Iowa Project 2000" is to track the progress of the Democratic and Republican presidential candidates prior to the Iowa Caucuses on 1/24/2000. This will be accomplished by conducting a series of surveys over the course of 1999 and January of the year 2000. Only those individuals who indicate that they plan on attending the Iowa Caucuses on 1/24/2000 will be surveyed.

Sample Design:

The sample for this survey was drawn from a computer database maintained by the state voter registrar, of all registered Republican voters in the state of Iowa. Each registered Republican who had voted in the 1996 or 1998 general election had an equal opportunity of being selected to participate in this survey. Only registered Republicans were called for this survey.

3323 random phone contacts were made in order to obtain the final sample of 300. (A screening question eliminated potential respondents who indicated that they did not plan to attend their precinct caucuses in January of the year 2000).

Only the respondents who were the listed registered voters and resided at the listed addresses were interviewed.

The primary data for this survey was obtained through 300 **complete**, 5-7 minute telephone interviews. The primary data was collected on January 10, 2000.

The results of this survey are based on the answers of all the respondents interviewed. This survey has a margin of error of + or - 5.61 % with a 95% degree of confidence.
